

	Failure in evaluation of expression or incorrect/unexpected return value								Special return value		
Activities	Participant	Task List	Priority	Due Date	Configuration Binding	Rule	Action Binding	Other	Participant	Priority	Due date
Screen Task	Restart Process Token.	Restart Process Token.	Restart Process Token.	Restart Process Token.				Screen: Restart Process Token.	NULL/empty string; Restart Process Token.	Not a number; Restart Process Token.	Not a timestamp/ date; Restart Process Token.
Script Task	-	-	-	-	-	-	-	Restart Process Token to run script, or Set Process Token to Completed.	-	-	-
Generate PDF Task	-	-	-	-	Restart Process Token to generate PDFs, or Set Process Token to Completed.		Restart Process Token to generate PDFs, or Set Process Token to Completed.	For encryption: user & password; Restart Process Token to generate PDFs, or Set Process Token to Completed.	-	-	-
Evaluate Rule Task	-	-	-	-	-	Restart Process Token to evaluate rule, or Set Process Token to Completed.	Restart Process Token to evaluate rule, or Set Process Token to Completed.	-	-	-	-
Evaluate Rule Set Task	-	-	-	-	-	Restart Process Token to evaluate rule, or Set Process Token to Completed.	Restart Process Token to evaluate rule, or Set Process Token to Completed.	-	-	-	-
Redirect Task	Restart Process Token.	Restart Process Token.	Restart Process Token or Set Process Token to Completed.	-	-	-	-	-	If NULL/empty string; Restart Process Token.	If not a number: Restart Process Token or Set Process Token to Completed.	
Placeholder Task	Restart Process Token.	Restart Process Token.	Restart Process Token or Set Process Token to Completed.	Restart Process Token or Set Process Token to Completed.	-	-	-	-	If NULL/empty string; Restart Process Token.	If not a number: Restart Process Token.	If not a timestamp/ date:Restart Process Token or Set Process Token to Completed.
Manual Task	-	-	Restart Process Token or Set Process Token to Completed.	Restart Process Token or Set Process Token to Completed.	-	-	-	-	-	If not a number: Restart Process Token or Set Process Token to Completed.	Not a timestamp/ date; Restart Process Token or Set Process Token to Completed.
Subprocess	-	Reactivate Process Instance.	Reactivate Process Instance.	Reactivate Process Instance.	-	-	-	-	-	If not a number: Reactivate Process Instance.	Not a timestamp/ date; Reactivate Process Instance.
Embedded Subprocess	-	Reactivate Process Instance.	Reactivate Process Instance.	Reactivate Process Instance.	-	-	-	-	-	Not a number; Reactivate Process Instance.	Not a timestamp/ date; Reactivate Process Instance.
