Release Notes 9.0.3 — Appway Component Extension
Patch Release | 06.11.2019

Changes since version 9.0.2 of the Component Extension:

Adaptive Tab
- Bugfix: Fixed an issue in the 'Adaptive Tab' Screen Component where content did not layout correctly when switching between tabs.

Form
- Bugfix: Fixed an issue affecting the ‘Form’ Screen Component where Group or Data Class Controls were duplicated when an Iterator element contained more than one of them.

Important! The Component Extension 9.0.3 is only compatible with Appway 9.0.2.
