Release Notes 9.1.11 — Appway Component Extension

Patch Release | 08.03.2021

Changes since version 9.1.10 of the Component Extension:

- **Adaptive Flow Layout**

  Fixed an issue where 'Adaptive Flow Layout' and 'Adaptive Flow Layout Group' Screen Components preserved the spacing of their Info Box child elements, whenever an action required their reload.

- **Dropdown List**

  Fixed an issue that caused the automatic scrolling of the page when opening a 'Dropdown List' Screen Component.

- **Info Table**

  Fixed an issue occurring in Package and global validation, where Info Table Screen Components returned an Internal Error.
