Release Notes 7.1.3 — Appway Component Extension
Patch Release | 13.11.2017

Changes since version 7.1.2 of the Component extension.

'Notification Popup' Screen Component

- Bugfix: Fixed an issue where blank pages were displayed. This occurred when accessing Screens using the Notification Popup if there was no user session.

'Popup' Virtual Component

- Bugfix: Fixed display issues which occurred when zooming and scrolling on mobile devices.
