Appway Platform (Core)

Bugfix

Area	Importance	Description
Data Class Behaviors	Low	Labels returned by Script properties of Behaviors are now correctly translated in the Workspace.
Package Export	High	A corrupted (i.e. non-importable either in Appway 10 or Appway 11 versions) .AWDEPLOYMENT file was generated under the following conditions: - There are uncommitted (not part of a Package version) changes in Package Properties (Logo, Description, Dependencies, Entry Points, Visibility, Replaceable and Replacements). - The version of the Package selected for export is either 'Latest' (e.g. '1.0.0'), or 'Latest modified' (e.g. '1.0.0 (modified)'). This fixes Known Issue KI-101-28 (affecting Appway 10.1.8 and 10.1.9): https://community.appway.com/screen/kb/article/1879068360031#fixed-issues-in-appway-10110
Package Export	Medium	Fixed an issue that was causing the 'Select Configuration' checkbox (in the 'Select Packages' step) to be enabled only when the Packages to be exported contained Package Configurations. All other Configuration Business Objects (Overriding Translations, Business Data Storage Configurations or Data History Configurations) were ignored by that flag, therefore preventing the correct export of Packages containing only the three above-mentioned configurations. See documentation: https://community.appway.com/screen/kb/article/1496136140789#2-configuration

Appway Extensions

Feature

Area	Importance	Description
Extension	Low	AzureBlobStorage Extension 1.0.0: Created a new Blob Storage Provider for Azure Blobs.

		See documentation: https://community.appway.com/screen/kb/article/1956522328698#7-azureblobstorage-extension

Change

Area	Importance	Description
Extension	Low	BusinessDataStorage Extension 1.5.5: Fixed an issue that caused Database Connections to be left open when using the BDSFindDataClassInstances Script Function with a failing SQL Script.
